Overall Length:

2.531 inches

Overall Height:

0.531 inches

Overall Width:

1.938 inches

Basic Shape Style:

Rectangular or square

Inclosure Type:

Encased

Circuit Construction Type:

Electron tube

Frequency Per Channel:

31.3 megahertz operating channel err-100

External Dc Operating Voltage In Volts:

1.4 2nd voltage err-100

Fsc Application Data:

Receiver-transmitter, radio, except navigation, nonairborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A32200
