**Overall Length:**

3.250 inches

**Overall Height:**

0.970 inches

**Overall Width:**

2.750 inches

**Basic Shape Style:**

Rectangular or square

**Frequency Per Channel:**

3.8 kilohertz operating channel

**Impedance Rating Per Channel:**

600.000 ohms output channel

**External Dc Operating Voltage In Volts:**

-36.0 single voltage

**Fsc Application Data:**

Oscillator, audio frequency radio, except navigation, nonairborne

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A32200
