Overall Length:

3.250 inches

Overall Height:

0.970 inches

Overall Width:

2.750 inches

Basic Shape Style:

Rectangular or square

Frequency Per Channel:

3.8 kilohertz operating channel

Impedance Rating Per Channel:

600.000 ohms output channel

External Dc Operating Voltage In Volts:

-36.0 single voltage

Fsc Application Data:

Oscillator, audio frequency radio, except navigation, nonairborne

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A32200
