Average Life Measurement:

Hours

Basic Shape Style:

Rectangular or square

Inclosure Type:

Encased

Installation Design:

Module

Circuit Construction Type:

Solid state

Connection Type And Location:

Connector, plug bottom

Connection Contact Type And Quantity:

1 connector, plug external

Special Features:

Key code lbm

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
