Overall Length:

8.000 inches

Overall Height:

3.500 inches

Overall Width:

7.000 inches

Operating Temperature Range:

+0.0/+55.0 degrees celsius

Basic Shape Style:

Rectangular or square

Inclosure Type:

Encased

Circuit Construction Type:

Solid state

Frequency Per Channel:

400.0 hertz operating channel

Phase:

Three

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
