**Operating Temperature Range:**

+0.0/+60.0 degrees celsius

**End Application:**

An/sqq-8 (v) 2 w/ec-4 and ec-7 unit 101 n/a cosal

**Basic Shape Style:**

Rectangular or square

**Installation Design:**

Module

**Circuit Construction Type:**

Solid state

**Connection Type And Location:**

Pin bottom

**Connection Contact Type And Quantity:**

40 pin external

**Supplementary Features:**

1024 words-16 bits each

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A32200
