Operating Temperature Range:

+0.0/+60.0 degrees celsius

End Application:

An/sqq-8 (v) 2 w/ec-4 and ec-7 unit 101 n/a cosal

Basic Shape Style:

Rectangular or square

Installation Design:

Module

Circuit Construction Type:

Solid state

Connection Type And Location:

Pin bottom

Connection Contact Type And Quantity:

40 pin external

Supplementary Features:

1024 words-16 bits each

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
