Storage Temperature Range:

+0.0/+55.0 degrees celsius

End Application:

Monitor vib pa20397/2190

External Dc Operating Voltage In Volts:

24.0 single voltage err-100

Product Name:

Communications module

Special Features:

I/o capacity: 8 i/o modules (flex and/or integra; rs-485 communicaitons port- 3 screw termination; maximum input power; 8.6 w; maximum backplane output current: 640 ma @ 5v; dimentions: 3.4x2.7x2.7 in

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A32200
