Standardized Electronic Module - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5963-01-557-3971

Overall Length:

3.700 inches

Overall Height:

1.800 inches

Overall Width:

1.890 inches

Basic Shape Style:

Rectangular or square

Circuit Construction Type:

Any acceptable

Special Features:

Consists of two igbt transistors in a half-bridge configuration with each transistor having a reverse connected superfast recovery free wheel diode

.....

Shelf Life:

N/a

Unit Of Measure:

Demilitarization:

No

Fiig:

A32200
