Mounting Method:

Unthreaded hole

End Application:

Voltage regulator

Regulation Method:

Line voltage

Electronic Device Type:

Solid state

Product Name:

Microcircuit

Special Features:

Linear voltage regulator ic; 0.1a, leaded process compatible-no; ouput voltage max-minus 12v; peak reflow compatible 260c-no; negative voltage type; mounting-thru hole; rohs compliant-no

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A540z0
