**Overall Length:**

4.200 inches

**Overall Height:**

1.080 inches

**Overall Width:**

3.120 inches

**Basic Shape Style:**

Rectangular or square

**Inclosure Type:**

Encased

**Circuit Construction Type:**

Solid state

**Frequency Per Channel:**

0.0 kilohertz input channel and 25.0 kilohertz input channel

**Signal Data Type Per Channel:**

1st output channel analog voltage and 2nd output channel analog voltage

**Product Name:**

Din-rail frequency to analog converter

**Color:**

Black

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A32200
