Overall Length:

19.0 inches

Overall Height:

20.0 inches

Overall Width:

1.75 inches

Basic Shape Style:

Rectangular or square

Installation Design:

Free-standing

Impedance Rating Per Channel:

50.0 ohms 1st output channel and 500.0 ohms 1st output channel

Product Name:

Converter

Special Features:

64 memory location, option 140mhz, dual band downconverter

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
