Average Life Measurement:

Not rated

End Application:

Usq-82

Basic Shape Style:

Rectangular or square

Inclosure Type:

Encased

Installation Design:

Module

Circuit Construction Type:

Solid state

Signal Data Type Per Channel:

Output channel digital and output channel time

Connection Contact Type And Quantity:

1 socket external and 48 pin external

Product Name:

Socket module

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A32200
