Terminal Quantity:

2

Terminal Type:

Screw

Overall Length:

5.375 inches

Overall Height:

7.560 inches

Overall Diameter:

6.875 inches

Frequency Response Range In Hertz:

+350.0/+10000.0

Power Rating:

25.00 watts normal

Mounting Facility Quantity:

3

Transducer Type:

Diaphragm

Usage Design:

Underwater

Installation Design:

Nonportable

Impedance Rating In Ohms:

16.0 voice coil

Mounting Method:

Unthreaded hole

Style Designator:

Projector

Supplementary Features:

2 insulated wire leads 17.750 in. Lg w/terminal lugs

Fsc Application Data:

Headsets, handsets, microphones and speakers

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A11600
