Overall Length:

17.000 inches

Overall Diameter:

21.000 inches

Usage Design:

Outdoor

Unit Type:

Re-entrant

Acoustic Length Developed:

41.000 inches

Device Type Accommodated:

Driver unit

Coupling Method:

1-3/4 in.-18 thd end coupling

Special Features:

150 min hertz frequency reponse range and no maximum rating

Material:

Steel

Material:

Steel

Surface Treatment:

Enamel

Surface Treatment:

Enamel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T332-a
