Overall Length:

15.500 inches

Overall Diameter:

1.375 inches

Usage Design:

Adapter used to amplify sound formicrophone and transform power for headset

Special Features:

Transformer input 600ohm load, transformer output 8 ohm load, amplifier input 350microvolts, amplifier output 0.330 to 0.550volts, max weight 80z; body material: metal

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A536x0
