Overall Length:

9.000 inches

Overall Height:

8.000 inches

Overall Width:

8.000 inches

Frequency Response Range In Hertz:

+275.0/+14000.0

Power Rating:

15.00 watts normal

Transducer Type:

Diaphragm

Usage Design:

Indoor and outdoor

Installation Design:

Nonportable

Mounting Method:

Bracket and swivel

Supplementary Features:

Built in line xfmr

Fsc Application Data:

Headsets, handsets, microphones and speakers

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A11600
