Largest End Width:

3.375 inches

Smallest End Width:

0.500 inches

Terminal Quantity:

2

Terminal Type:

Tab, solder lug

Overall Length:

5.000 inches

Overall Height:

2.500 inches

Accessory Components:

Cord and volume control switch

Storage Temperature Range:

-31.7/+75.0 degrees celsius

End Application:

Computer system, digital an/usq-116

Power Rating:

250.00 milliwatts normal

Transducer Diameter:

3.0 inches

Transducer Type:

Cone

Usage Design:

Indoor

Installation Design:

Portable

Impedance Rating In Ohms:

8.0 voice coil

Style Designator:

Irregular enclosure

Specification Data:

54779-50474 manufacturers specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A11600
