Voice Coil:

Included

Special Features:

Throat diameter is 2 in.; impedance 8-16 ohms; dc resistance 4.3 to 8.5 ohms ±10 pct at 25 degrees c; power capacity 100 w above 500 hz, 150 w above 1 khz; efficiency is 30 pct; frequency range 500 hz to 20 khz; recommended crossover is 500 hz or higher; diaphragm is 0.05 mm pure titanium; voice coil diameter is 100 mm; voice coil material is edgewound aluminum ribbon; dimensions 9-1/4 in. Dia, 5-1/16 depth; mounting w/four 1/4-20 threaded holes, 90 degrees apart on 4 in. Dia

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T332-a
