Frequency Response Range In Hertz:

+50.0/+17000.0

Impedance Rating:

150.0 ohms

Output Sensitivity Rating In Decibels:

47.5

End Application:

Video teleconferencing terminal, shure bros inc

Special Features:

Surface mounted electret condenser microphone; cardioid cartridge; pickup angle (-3db) = 130 deg; power requirements 11 to 52 vdc phantom, 2.0 ma current consumption; operating temperature range minus 18 degrees c to 57 degrees c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A06400
