Largest End Width:

9.000 inches

Smallest End Width:

5.700 inches

Terminal Type:

Screw

Overall Length:

5.700 inches

Overall Height:

13.400 inches

Frequency Response Range In Hertz:

+70.0/+16000.0

Power Rating:

100.00 watts peak

Transformer Primary Impedance Rating In Ohms:

25.0 and 50.0

Transducer Type:

Not provided

Usage Design:

Indoor and outdoor

Installation Design:

Nonportable

Mounting Method:

Bracket

Special Features:

Heavy duty mounting brackets w/ flanged self-locking screws to deter theft

Special Test Features:

Meets or exceeds ms810 for environmental durability

Style Designator:

Irregular enclosure

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A11600
