Accessory Components:

Power switch and volume control switch

Frequency Response Range In Hertz:

+80.0/+16000.0

End Application:

Automated weather observation syste (awos)

Power Rating:

1.30 watts normal

Err Default:

Err default

Usage Design:

Indoor

Installation Design:

Portable

Impedance Rating In Ohms:

8.0 voice coil

Special Features:

Compact, ergonomic design; ac adapter included; reference data, ti-6560.71, awss, pg 19-1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A11600
