Mounting Material:

Aluminum alloy or steel

Mounting Type:

Frame or stand

End Application:

Variable dispersion speakers

Usage Design:

Indoor

Mounting Configuration:

Built-in surface mount brackets and hardware for flying/suspension

Unit Type:

Electromagnetic

Individual Loudspeaker Quantity:

16

Individual Loudspeaker Audio Power Rating:

200.0 watts and 600.0 watts

Special Features:

Adjustable dispersion angles 60deg, 45deg, 30deg, 15deg; compact design includes 4 preassembled modules with 4 lf drivers and 12 hf dome tweeters; 600w continous, 200w 24hr pink noise; high sensitivity up to 99db, 1w at 1 meter (500 to 5000 hz)

Supplementary Features:

Polypropylene construction; front grille cover; parallel connectors-dual speakon and screw terminals; vertical or horizontal mounting

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T332-d
