Overall Width:

4.100 inches

Special Features:

Grill: integral fabric wrap; frequency response: 120 - 20,000 hz; sensitivity: 92 db at 2.8 volts; impedance: 8 ohms; power handling: 150 watts; max. Output: 118 db peak at 1 meter; coverage angles: 120 degree h x 25 degree v; depth: 2.12 inches; weight: 15 lb; system configuration: compact frequency-shaded line array; cabinet type: sealed box, columnar

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T332-a
