Overall Height:

17.980 inches

Overall Width:

11.120 inches

Frequency Response Range In Hertz:

+60.0/+20000.0

Transducer Type:

Cone

Usage Design:

Indoor and outdoor

Installation Design:

Portable

Special Features:

48 hz - 20 khz frequency; 8 ohm impedance; 90 x 50 degrees coverage pattern; rotatable horn design; integral monitor angle on enclosure; built-in pole mount; 200 watt continuous, 800 watt peak power; black finish

Style Designator:

Oval

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A11600
