Terminal Type:

Screw

Overall Height:

425.0 millimeters

Body Diameter:

800.0 millimeters

Power Rating:

100.0 watts normal and 150.00 watts peak

Mounting Facility Quantity:

1

Usage Design:

Indoor

Installation Design:

Nonportable

Mounting Method:

Bracket and bolt

Product Name:

Boxch hemi-directional loudspeaker

Special Features:

Included is ceramic terminal blocks, thermal fuse, heat-resistant high-temperature wiring; material is abs tsg (acrylonitrile-butadiene-styrene in foam structure; operating temp range is minus 25 to plus 55 degrees c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A11600
