Accessory Controlling Agency:

Diving unlimited international inc

Product Name:

Diving weight & trim system

Special Features:

Dui's patented system uses a pull-cord system that secures the weight pockets. A large, easy grip handle can be pulled to dump the weights. The benefits of this dui weight&trim system are: the diver can dump half of the weights at a time. As the weights are on a lanyard, once the handle is pulled, the weights can be held away from the body. The dui weight & trim system can be worn under most any bc, and is perfect for both wetsuit and drysuit diving.
