Environmental Protection:

Acid resistant and oil resistant and moisture resistant and salt water resistant

Unit Package Quantity:

4

Unit Package Type:

Can

Drying Method:

Air

Dry Dielectric Material Voltage Rating In Volts Per Mil Thickness:

667.0

Color:

Any acceptable

Specification Or Standard:

An type and ca grade

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T388-c
