**Wall Thickness:**

Any acceptable

**Dielectric Withstanding Voltage In Volts:**

2500.0

**Reliability Indicator:**

Not established

**Inside Diameter:**

Between 0.289 inches and 0.311 inches

**Overall Length:**

Between 2.500 feet and 3.500 feet

**Temperature Rating:**

200.0 degrees celsius

**Coating Material:**

Silicone resin

**Environmental Protection:**

Any acceptable

**Flexibility:**

Flexible

**Color:**

Natural

**Material:**

Glass braid

**Material:**

Glass fiber

**Style Designator:**

Nonshrinkable

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A22500
