Wall Thickness:

Any acceptable

Dielectric Withstanding Voltage In Volts:

2500.0

Reliability Indicator:

Not established

Inside Diameter:

Between 0.289 inches and 0.311 inches

Overall Length:

Between 2.500 feet and 3.500 feet

Temperature Rating:

200.0 degrees celsius

Coating Material:

Silicone resin

Environmental Protection:

Any acceptable

Flexibility:

Flexible

Color:

Natural

Material:

Glass braid

Material:

Glass fiber

Style Designator:

Nonshrinkable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A22500
