Tempuratur	e Rating:
75.0 degrees	s celsius and 180.0 degrees celsius
Environmen	tal Protection:
Chemical res	sistant and corrosion resistant and flame resistant and mildew resistant and solvent resistant
Expanded Ir	nside Diameter:
0.750 inches	
Recovered I	nside Diameter:
0.420 inches	
Recovered V	Wall Thickness:
0.057 inches	
Min. Tensile	Strength (psi):
600 pounds	per square inch
Flexibility:	
Flexible	
Color:	
Black	
Material:	
Rubber silico	one class q
Style Desig	nator:
Shrinkable	
Shelf Life:	
N/a	
Unit Of Mea	sure:
Demilitariza	tion:
No	
Fiig:
