Electrical Insulation Sleeving - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5970-01-013-0359

Reliability Indi	cator:
Not established	I
Overall Length	1:
Any acceptable	
Tempurature F	Rating:
-60.0 degrees of	celsius and 135.0 degrees celsius
Environmenta	I Protection:
Corrosion resis	tant and flame resistant and mildew resistant and water resistant
Expanded Insi	de Diameter:
0.125 inches	
Recovered Ins	ide Diameter:
0.088 inches	
Recovered Wa	III Thickness:
0.0027 inches	
Heat Shrinkag	e Rating In Percent:
30.0	
Min. Tensile S	trength (psi):
20000 pounds	per square inch
Flexibility:	
Flexible	
Color:	
Clear	
Material:	
Plastic, polyeth	ylene terephthalate, mil-dtl-23053/7, class 1
Material:	
Plastic polyethy	/lene
Style Designat	tor:
Shrinkable	
Dielectric Mate	erial Voltage Rating Per Unit Thickness:
2500.0 volts pe	r military /0.001 inch/
Shelf Life:	
N/a	
Unit Of Measu	re:
Demilitarizatio	n:
No	
Fiig:	
A22500
