Wall Thickness:

Any acceptable

Dielectric Withstanding Voltage In Volts:

Any acceptable

Reliability Indicator:

Not established

Inside Diameter:

1.500 inches

Overall Length:

4.000 feet

Tempurature Rating:

500.0 degrees fahrenheit

Coating Material:

Plastic, chlorotrifluoroethylene polymer

Environmental Protection:

Flame resistant and solvent resistant

Impregnation Material:

Plastic, chlorotrifluoroethylene polymer

Flexibility:

Semirigid

Color:

White

Material:

Fiberglass

Material:

Glass fiber

Style Designator:

Nonshrinkable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A22500
