Wall Thickness:

Between 0.006 inches and 0.010 inches

Dielectric Withstanding Voltage In Volts:

10000.0

Reliability Indicator:

Not established

Inside Diameter:

Between 0.091 inches and 0.101 inches

Overall Length:

Between 6.250 inches and 6.750 inches

Temperature Rating:

260.0 degrees celsius

Flexibility:

Flexible

Color:

Natural

Material:

Plastic, polytetrafluoroethylene, ams 3654

Style Designator:

Nonshrinkable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A22500
