Reliability Indicator:

Not established

Temperature Rating:

200.0 degrees fahrenheit and 225.0 degrees fahrenheit

Recovered Wall Thickness:

Between 0.001 inches and 0.002 inches

Special Features:

Lap or butt joint 0.500 in. Maximum and 0.380 in. Min; band inside diameter 3.100 in. Min; band must shrink to 3.000 in. Diameter maximum when heated 5 to 7 min

Flexibility:

Flexible

Material:

Plastic, mil-i-631, type g, form f, class 1

Style Designator:

Shrinkable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A22500
