Reliability Indicator:

Not established

Temperature Rating:

-94.0 degrees fahrenheit and 257.0 degrees fahrenheit

Environmental Protection:

Flame resistant and mildew resistant

End Application:

Mk 50 torpedo

Min. Tensile Strength (psi):

7 pounds per square inch

Special Features:

Matl polybutylene terephthalate polyester monofilaments; nom diameter 1.25 in, min diameter 1.125 in, man diameter 1.375

Flexibility:

Flexible

Color:

Black

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A22500
