Main Bodylength:

0.625 inches as supplied

Main Body Small End Inside Diameter:

0.110 inches as supplied

Min. Tensile Strength (psi):

15 pounds per square inch

Color:

Blue and clear

Material:

Plastic, vinylidene chloride copolymer

Material:

Plastic, vinylidene chloride copolymer

Dielectric Material Voltage Rating Per Unit Thickness:

2000.0 volts per military /0.001 inch/

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A22500
