**Wall Thickness:**

Between 0.508 millimeters and 0.076 millimeters

**Dielectric Withstanding Voltage In Volts:**

2.000

**Reliability Indicator:**

Not established

**Inside Diameter:**

Between 0.093 inches and 0.046 inches

**Temperature Rating:**

-13.0 degrees fahrenheit

**Environmental Protection:**

Corrosion resistant and water resistant

**Min. Tensile Strength (psi):**

1500 pounds per square inch

**Flexibility:**

Flexible

**Color:**

Green

**Material:**

Plastic, polyolefin, mil-i-23053/5

**Style Designator:**

Shrinkable

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A22500
