**Reliability Indicator:**

Not established

**Temperature Rating:**

-13.0 degrees fahrenheit

**Environmental Protection:**

Corrosion resistant and flame resistant and mildew resistant and water resistant

**End Application:**

5970-01-357-5012

**Min. Tensile Strength (psi):**

1500 pounds per square inch

**Flexibility:**

Flexible

**Color:**

Blue

**Material:**

Plastic, polyolefin, mil-i-23053/5

**Style Designator:**

Shrinkable

**Dielectric Material Voltage Rating Per Unit Thickness:**

500.0 volts per military /0.001 inch/

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A22500
