Wall Thickness:

0.0625 inches

Reliability Indicator:

Established

Inside Diameter:

0.250 inches

Overall Length:

12.000 inches

Special Features:

Halar; ethylene-chlorotrifluoroethylene copolymer monofilament; monofilament size; 011; chemically inert thermally stable; good electrical properties; high chemical gas and moisture resistance; abrasion and cut resistant; low outgassing suitable for plenum applications; Oxygen index; 60%

Flexibility:

Flexible

Color:

Black

Material:

Plastic

Material:

Plastic

Style Designator:

Nonshrinkable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A22500
