**Wall Thickness:**

0.0625 inches

**Reliability Indicator:**

Established

**Inside Diameter:**

0.250 inches

**Overall Length:**

12.000 inches

**Special Features:**

Halar; ethylene-chlorotrifluoroethylene copolymer monofilament; monofilament size; 011; chemically inert thermally stable; good electrical properties; high chemical gas and moisture resistance; abrasion and cut resistant; low outgassing suitable for plenum applications; Oxygen index; 60%

**Flexibility:**

Flexible

**Color:**

Black

**Material:**

Plastic

**Material:**

Plastic

**Style Designator:**

Nonshrinkable

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A22500
