Inside Diameter:

1.470 inches

Overall Length:

7.00 inches

Tempurature Rating:

135.0 degrees celsius

Storage Tempurature Range:

-55.0 to 135.0 degrees celsius

Recovered Wall Thickness:

0.08 inches

End Application:

2350-01-091-5405

Product Name:

Boot, straight, heat shrinkable

Special Features:

Boots intended for use with adapters per specification sae as85049/60 figure 2 for connector shell size indicated

Flexibility:

Flexible

Color:

Black

Material:

Rubber, synthetic

Material:

Rubber synthetic

Supplementary Features:

Material = heat shrinkable polyolefin-temperature

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A22500
