Electrical Insulation Sleeving - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5970-01-465-2141

Wall Thickness:
Between 0.018 inches and 0.022 inches
Reliability Indicator:
Not established
Inside Diameter:
Between 0.258 inches and 0.268 inches
Overall Length:
Between 0.157 inches and 0.187 inches
End Application:
Power supply p/n 41446000
Material:
Plastic, polytetrafluoroethylene
Material:
Plastic polytetrafluoroethylene
Style Designator:
Nonshrinkable
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A22500
