Wall Thickness:

0.025 inches

Inside Diameter:

Between 0.229 inches and 0.249 inches

Overall Length:

150.000 feet

Tempurature Rating:

482.0 degrees fahrenheit

Environmental Protection:

Abrasion resistant and water resistant and mildew resistant

Special Features:

Wmaterial - nylon; inert in alkalis; generally insoluble in organic solvents; slowly decomposes in mineral acids; soluble in phenolic and formic acids; slight loss in strength with prolonged exposure to ultraviolet light - sunlight

Flexibility:

Flexible

Color:

Black

Style Designator:

Nonshrinkable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A22500
