Overall Length:

8.000 inches

Overall Height:

0.025 inches

Overall Width:

5.000 inches

End Application:

Test set; defense meteorological satellite program (dmsp)

Product Name:

Insulator, power entry panel

Special Features:

Material is plastic, laminated thermosetting, glass-cloth, epoxy-resin (gee): m24768/2-s-4 per mil-i-24768/2

Material And Location:

plastic, laminated thermosetting

Style Designator:

Flat, rectangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A007a0
