Wall Thickness:

Between 0.012 inches and 0.018 inches

Inside Diameter:

Between 0.375 inches and 0.394 inches

End Application:

C130

Special Features:

Outside dia. 0.452 inches min. And 0.470 inches max., inside surface condition smooth

Flexibility:

Flexible

Color:

Natural

Material:

Plastic, polytetrafluoroethylene

Material:

Plastic polytetrafluoroethylene

Specification Data:

81346-astm d3295, type2 grade b professional/industrial government specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A22500
