Product Name:

Sil pad k10

Special Features:

2beige; 0.005 to 0.007 millimeters thick; minus 60 to plus 180 degrees centigrade continuous use temperature; kapton reinforcement carrier; 90 shore a hardness; 6000 dielectric breakdown voltage, vac; 3.7 dielectric constant, 1000hz; vtm-o flame rating

Material And Location:

silicone and film

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A007a0
