Wall Thickness:	
Any acceptable	
Reliability Indicator:	
Not established	
Inside Diameter:	
Between 0.250 inches and 0.750 i	nches
Overall Length:	
Any acceptable	
Tempurature Rating:	
-70.0 degrees celsius and 125.0 d	egrees celsius
Environmental Protection:	
Weather resistant	
End Application:	
Aircraft, harrier av-8b; cbil0310	
Design Form:	
Full round	
Product Name:	
Expando pt plus self-fitting protect	ive oversleeve
Special Features:	
size is 1/2 inch; general purpose;	; open-weave, braided polyester; fray resistant; cuts with ordinary scissors; resistant to trapping water,
heat and humidity; not to be used	in hard vacuum environments nor immersed insolvents or liquids where plus particulates could
contaminate the system environme	ent
Flexibility:	
Flexible	
Color:	
Black	
Material:	
Plastic, polyester	
Material:	
Plastic polyester	
Style Designator:	
Nonshrinkable	
Shelf Life:	
N/a	
Unit Of Measure:	
 Demilitarization:	
No	
Fiig:	
A22500
