Reliability Indicator:

Not established

Overall Length:

8.000 inches

Expanded Inside Diameter:

Any acceptable

Recovered Inside Diameter:

2.953 inches

Recovered Wall Thickness:

Between 0.240 inches and 0.260 inches

End Application:

Surface minesweeping systems

Design Form:

Full round

Product Name:

Sleeve, insulating

Special Features:

End type designation: ck; recommended hose clamps: 5781286-1

Flexibility:

Semiflexible

Color:

Any acceptable

Material:

Rubber

Material:

Rubber

Style Designator:

Shrinkable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A22500
