Electrical Insulation Sleeving - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/5970-01-519-3356

Reliability Indicator:
Not established
Overall Length:
8.000 inches
Expanded Inside Diameter:
Any acceptable
Recovered Inside Diameter:
Between 4.783 inches and 4.823 inches
Recovered Wall Thickness:
0.250 inches
End Application:
Surface minesweeping systems
Design Form:
Full round
Product Name:
Sleeve, insulating
Special Features:
End type designation: s; recommended hose clamps: 5781286-5
Flexibility:
Semiflexible
Color:
Any acceptable
Material:
Rubber
Material:
Rubber
Style Designator:
Shrinkable
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A22500
